EDUCATION

MSc - User Experience Design

Jan 2025 – Jan 2026

Birmingham City University, United Kingdom

EXPERIENCE

Wisdom Square Technologies, (Part Time)

May 2025 - Sep 2025

User Experience Designer

- Designing UX for enterprise financial systems supporting internal operations and customer management workflows.
- Leading redesign of Salesforce-based modules including Accounts, Refunds, Dealerships, Warranty, and GAP.
- Improving information architecture and visual hierarchy across data-heavy interfaces to reduce cognitive load.
- Creating wireframes, high-fidelity UI designs, and reusable components using Figma.

DFOE Pvt. Ltd, (Part Time)

Feb 2025 - May 2025

UI/UX Designer

- Rejoined DFOE Pvt. Ltd. on a short-term contract while completing postgraduate studies in the UK.
- Designed UX solutions for One.Class, an education-focused digital platform.
- Delivered user flows, wireframes, and UI screens aligned with functional and academic requirements.
- Worked closely with distributed product and engineering teams to support iterative improvements

EXPERIENCE

DFOE Pvt. Ltd, Bangalore

Dec 2021 - Aug 2024

UI/UX Designer (Promoted to Senior within 10 months)

- Owned UX decisions for admin dashboards, client portals, POS back-office systems, and workflow-driven modules.
- Conducted usability testing and collaborated with stakeholders to inform design decisions.
- Designed and optimised complex, data-heavy interfaces with a strong focus on usability, consistency, and scalability.
- Produced user flows, wireframes, prototypes, and high-fidelity UI designs across multiple product releases.
- Collaborated closely with stakeholders and developers to deliver long-term, production-ready UX solutions.
- Supported design system consistency and contributed to mentoring and UX improvements across the product lifecycle.

Your Kirana, Bangalore

Mar 2020 - Apr 2021

Co-Founder and Product Designer

- Designed Your Kirana, a mobile app UX case study to digitise local kirana store ordering and management
- Conducted user research with customers and shop owners to identify pain points in manual ordering and stock tracking
- Defined user personas, user journeys, and task flows based on real-world usage scenarios
- Created low-fidelity wireframes to structure navigation and validate core flows
- Designed high-fidelity mobile UI screens with a simple, familiar, and accessible layout
- Applied UX principles to improve usability, clarity, and order completion speed
